Subject: RE: Bridgegate - Bunkering in Gove 18 - 22 Oct 13

Dear Mr Rakesh,

Unfortunately there are no bunkers at Gove. On the way out the vessel will have options of diverting to either Port Moresby PNG or Suva, Fiji (the closest East Coast Australian port would require a much larger diversion).

Of these we would suggest Suva is the best option for delivery and price. Bunkers of 180cst and MGO (0.05%) can be delivered ex pipe with pricing currently around 790USD and 1150USD respectively.

For Port Moresby, fuel must be purchased CIA in the local currency and current pricing indications 890USD for 180 cst.

Please let me know which works better.

Best Regards,
Suzanne

Dear Suzanne

She will be at Gove (Australia) to load alumina for discharge in Kitimat (Canada)

Can you please advise if can get

400 Mts of HSIFO + 150 Mts of LSIFO with S < 1 % at Gove ISO spces . between 18 -22 Oct

Alternatively what will be best port to bunker her as she does not have enough bunkers to reach Kitimat.

Regards
Rakesh
